

# SPRINT LP

Bravi's upgraded version of the innovative order picker specifically designed to handle large and extra-large parcels

- **Extended Battery Life:** premium 245 Ah battery pack granting a longer working cycle between charges
- **Exceptional maneuverability:** compact size and light design combined with a 5.35 mt working height
- **Upgraded Large Parcel Deck:** fully motorized large parcel deck with integrated 90 kg capacity foldable load tray
- **Super Low Running Costs:** Reduced operating costs, maintenance free mast and superior standard warranty package

## EFFICIENT AND VERSATILE

SPRINT LP lifts the operator and large parcels, easily positioning them at the desired height and allowing for faster and safer performance than if manually handled. The large parcel deck is now integrated in the motorized load tray design which can be lifted to become a large parcel attachment or lowered to act as the standard load tray. Perfect for simple picking and shelves' replenishment operations but also for more complex warehouse applications.

## SAFE

Hand sensors and dual footswitches on the platform ensure the correct position of the operator while actively onboard using the lifting functions. The heavy-duty large parcel deck design allows the operator to safely handle items up to 90 kg, reducing the risk of injuries related to the manual movement of goods. To avoid bad positioning and prevent injuries, the set of rollers on both sides of the deck grant a smoother picking and loading process.

## DURABLE

Simple, efficient, and comfortable the SPRINT LP is the result of continuous technical improvements. The careful selection of high-quality components, and an extremely simple yet effective design make the SPRINT LP virtually maintenance-free, designed to guarantee low ownership costs and increased uptime.

**"Evolution of the standard version, Sprint LP adds functions that allow the operator to manage a wider range of goods: from doors to large parcels."**

## Measurements

A	Working height	5350 mm	Unit Weight	714 kg
B	Platform height	3350 mm	Rated Number of Occupants	1
C	Stowed Unit height	1440 mm	Drive Speed Stowed	5 km/h
D	Platform length	1500 mm	Drive Speed Elevated	1.2 km/h
E	Platform width	776 mm	Inside Turning Radius	ZERO
F	Entry step	360 mm	Outside Turning Radius	1600 mm
G	Large Parcel Deck Width	401 mm	Gradeability while elevated	2°
H	Large Parcel Deck Height	334 mm	Power Source	110/220 V ca 24Vcc
I	Foldable Load Tray Length	600 mm		
L	Foldable Load Tray Width	700 mm		
M	Platform Capacity	130 kg		
N	Load Tray + L.P. Deck Overall Capacity	90 kg
